CAREER SUMMARY

Hey there! I'm a seasoned Full-Stack Developer with over 3 years in the game, rocking the MERN stack (MongoDB, Express.js, React, Node.js). I love turning ideas into real, functional web apps and have a knack for writing clean, scalable code. I've worked on a variety of projects, collaborating with awesome teams to create solutions that make a difference. Always eager to learn and stay ahead of the curve, I'm excited about joining a dynamic team where I can keep pushing the envelope with cutting-edge tech and innovative projects
